

Dream New York

- Hotel Overview:** Situated between New York's theatre district and Central Park West, and defined by Vikram Chatwal Hotels' trademark whimsical design, Dream New York brings an avant-garde level of surrealism to the hotel industry. Housed in a landmark 1895 Beaux-Arts building, graceful blue lights illuminate the façade's architectural features and introduce visitors to Dream's eclectic fusion of modern and traditional aesthetics. With creative imaging and architectural elements executed by Zeffdesign, the tone throughout Dream intertwines fantasy and luxury.

Restaurants & Bars:

Rm.Fifty5: Located just to the east of the Reception Desk is Rm.Fifty5, a lobby lounge featuring a modern twist on traditional French Provincial design, with Dorian Webb Venetian chandeliers, hard-wood lined floors and ceilings and chic 1960s-inspired glass mirrors.

AVA Lounge: Located atop Dream is AVA, a bi-level penthouse lounge featuring panoramic urban views and whimsical décor – part Rome, part Riviera, with inflections of South Beach. The décor draws from a palette of swimming-pool blue, gold, black and white, setting the tone for contemporary elegance.

Amalia: Located adjacent to Dream is Amalia, an 8,000 square foot bi-level restaurant and lounge by restaurateur Greg Brier. With décor that combines the style and spontaneity of downtown with the refinement of Midtown, Amalia offers a sophisticated Mediterranean-inspired menu by Chef Adam Ross. In a subtle play on its home in Dream, the space is named after the mother of Sigmund Freud.

Serafina Broadway: Located just down the mirrored hallway, adjacent to the concierge lounge, is the famed Italian eatery Serafina. Designed by David Rockwell & The Rockwell Group – the design powerhouse behind Nobu and W Union Square – the Fellini-esque Serafina features inspired spins on classic Italian fare – as well as the best thin-crust pizza in New York City, a big hit with the restaurant’s glamorous downtown clientele.
